

bottle caps are sealed covers for bottles which are containers for liquids. bottle caps come in different shapes, sizes, and materials and they can be twisted off or use other removal processes. They all are used to seal containers. They are important for 2 main reasons. 1 they prevent spilling 2 they often (though not always) help to preserve food/ drinks either for transport or for storage

doing to much (but that is ok)- without bottle caps, we would not have convenient ways to ship or preserve liquids stored in bottles bottle caps therefore support food distribution food variety and food commerce helping nutrition and wealth

zionism- political campaign for the jewish people to have their own state. 1890s starts in europe many supporters of zionism reside in Israel...Israel represents the completion of the goal of zionism. Jerusalem for zionists represents the promised land/ land of freedom. Fulfillment of jewish nation's century-long goal and is a source of conflict between ultra- orthodox and other jews
